Accessibility to rapidly growing Southeast Asia market

MHI Aerospace Vietnam Co. Ltd. (MHIVA), a group company of Mitsubishi Heavy Industries, Ltd.(MHI), is located in Hanoi, Vietnam. MHIVA was established in 2007 as one of the oversea manufacturing sites of MHI and started production of Boeing 737 Inboard Flaps in 2009, followed by transfer of 777 Door productions in 2014. Over 300 highly skilled workers have been contributing with vigorous effort for "Kaizen" (Improvement) activities. An integrated production management system is also well structured since company foundation. MHIVA employs over 300 workers that is not only high skilled but also very motivated for "Kaizen" activities. Additionally, MHIVA has established integrated production and management system with the support of MHI. MHIVA according has superior assembly capability of small/middle sized aircraft components.

Furthermore, MHIVA is able to make a difference in the aero structure business with competitive price in Hanoi, Vietnam where we have an access to rapidly growing Southeast Asia market. MHIVA surely continues to make progress with MHI and provides constant support for the aircraft industry.
